to align
pages

B

- Place heel of AFO on sizing chart
- Be certain to include posterior stop
- If foot is longer than brace, include foot

C

- Trace AFOs for accuracy
- Match longest point to number on right
- If you are between or slightly above line, round up

D IMPORTANT

Necessary Adjustments for Circumference

For all AFO's, TCFlex, DAFO's,
KAFO's, SMO's with:

- Solid ankle, instep strap, articulating hinges, posterior stop
Increase 1 full size
- Turbo boot, posterior stop, hinges, footplates, instep, forefoot and toe strapping:
Increase 2 sizes

Fold under on *Solid Fold Line*,
align *Solid Lines* and arrows,
and tape pages together.

Fold up on *Dotted Fold Line*.
